Wellpartner Introduces Its Thought Leadership Program Making a Difference When It Matters Most

Wellpartner (<http://www.wellpartner.com>), a leading provider of services to Covered Entities participating in the 340B Drug Pricing Program, announced it is deploying a Thought Leadership program to identify and analyze all of the key issues affecting the 340B industry. Information will accompany insights gained from nearly a decade of servicing clients.

"Empowering customers, through serving as a trusted source of meaningful 340B industry information, is integral to our efforts to perform at a genuine partnership level," said James Love, Wellpartner CEO. "Beyond delivering our industry-leading services, we serve as an advisor, and information will now be shared with a broad audience through Wellpartner's Thought Leadership program."

Based on Wellpartner's daily interaction with hundreds of Covered Entity clients, ranging from large DSH hospitals to small FQHCs, the company has a unique view of the 340B Program, from how it works, to how it should work. Wellpartner also understands the unique challenges that the Program imposes on Covered Entities and, most importantly, understands and fully supports the Program mission—to help Covered Entities stretch scarce federal resources, as far as possible, reaching more eligible patients and providing more comprehensive services.

"We look forward to sharing Wellpartner's Thought Leadership program with our clients", said Mr. Love. "We also invite our clients and others to provide us with feedback. From comments on our analyses to recommendations on future topics, we welcome all input."

About Wellpartner

Wellpartner is a leading provider of 340B Drug Pricing Program services. We also offer provider and patient centric specialty pharmacy services via our URAC accredited pharmacies. Our services are finely tuned toward optimizing our clients' programs through; industry leading compliance, the unique ability to unlock specialty prescriptions from exclusive networks, access to over 60,000 pharmacies, and easy to implement data interfaces. Our goals align with our clients', as we work together to stretch scarce Federal resources as far as possible, reaching more eligible patients and providing more comprehensive services. Today, hundreds of covered entities, ranging from large disproportionate share hospitals to small clinics, trust Wellpartner to optimize their 340B programs and serve their patients.
